Patch 31 - CSU Read Me Document

Scheduled to be released to SQT on 1/23/02
Scheduled to be deployed on 2/3/02

Installation Patch 31 - CSU

This patch will include Client side changes. The client for Patch 31, along with the instructions for loading it, are attached with this document in the Read Me distribution e-mail.

Patch 31 to include the following:

Change Request Transmittals

00-686-DoD Conversion to EURO LQA

Modify the CSU forms to reflect the EURO symbol or abbreviation in all places that currently reflect the monetary symbol or abbreviations for Germany, Italy, Belgium, Portugal, and Luxembourg. CSU standard reports must als o be modified to reflect EURO with all monetary amounts. Modified CSUAWA, CSUSUPS, CSUBAS forms and report CSU_0155

00-702-DoD Conversion to EURO LN Modern Defense Civilian Personnel Data

Modify the CSU forms to reflect the EURO symbol or abbreviation in all places that currently reflect the monetary symbol or abbreviations for Germany, Italy, Belgium, Portugal, and Luxembourg. CSU standard reports must also be modified to reflect EURO with all monetary amounts. Modified CSUAWA, CSUSUP, CSUBAS forms and report CSU_0155

02-023-DoD Update 34 Modifications to the CSU Application

Modify CSU Application to always display actual Pay Basis (Retained or Assigned). Insure displayed calculated pay amounts are calculated using the actual Pay Basis. If Pay Rate Determinate is A, B, E, F, U or V then the actual Pay Basis come from the Retained Grade record. Modified CSUBAS and CSULEA forms. Modified SF75 report.

Remedy Problem Ticket

3681   Appraisals not sorting properly on Demo Appraisal form. The PD_DEMO_POPULATE procedure only sorts the first 3 appraisals. Redesigned the DEMO_APPRAISAL_INFO block and reengineered the PD_DEMO_POPULATE procedure to display all records.

3888   PREM_PAY_SAL_FLAG populating EMPLOYEE table incorrectly. PREM_PAY_IND not populated on POSITION and REGIONAL_RPT_DATA tables. Multiplier removed from PREM_PAY_SAL_FLAG portion of populates EMPLOYEE table in CSUDB.CRPACK.SQL.   Changed PREM_PAY_SAL_FLAG from varchar to number on EMPLOYEE table. Rewrote PREM_PAY_IND populate code in CSUDB.CRPACK.SQL

3893   Auto query on navigation is not working on RESOURCE (CSURES.FMB), EDUCATION (CSUEDU.FMB), CCAS INFO (CSUCAS.FMB), ARMY DEMO (CSUADEMO.FMB), CHINA LAKE (CSUCHINA.FMB), and DEMO APPRAISAL (CSUDAPP.FMB). The data populate queries had been commented out in the WHEN -NEW -FORM -INSTANCE triggers of each form. Also, on 15 October 2001, the structure name for DEMO PROJECT - CCAS was changed to DEMO PROJECT - CCS/CCAS. Un-commented the forms and changed CSUDB.DRPACK.SQL to reflect new structure name.

3967   EDP_TYPE not populating on the CIV_POSITION_HAZARD table. Corrected CSUDB.CRPACK.SQL to populate EDP_TYPE correctly. Also changed form CSUPOS to correctly display PREMIUM_PAY_IND and multiple occurrences of EDP_TYPE

4226   Page breaks in the middle of an individual's information. Consequently people appear on more than one page and only 2-4 names appear per page. The following was changed in report CSU_1001. Removed M_9 frame from around the employee_tsp data on layout, set "Page Protect" pagination on repeating frame R_1 so all lines for each employee are kept together without overflowing to new page. Added "and f.tsp_proj_flag = 'N'" syntax to the where clause in Q_TSP_STAT_LINK query so only the employee's current TSP status is displayed.

Test Director Problem Reports

7658   When building security "online" for any type of users, if a row in csudb_sec_stage has a ssan larger than 9 digits the SELECT/INTO statements in the csudb_security_package procedure fail because the "value too large" error. Altered CSUDB_SEC_STAGE table by changing SSAN from VARCHAR2(30) to VARCHAR2(9). Modified CRSECSTAGE_F.SQL and CRSECSTAGE.SQL by adding exception handling for LN SSAN insertions. Change csudb_security_pkg so online security matches the end-of-day refresh security (CSUDB); use of cursors instead of "select into".

Miscellaneous Updates

This patch includes modifications to the User's Guide.
